

How do I replace
my mailbox key?

First things first, you will need to know the serial number of your key. So write it down somewhere where you can find it, so in the event that you lose your key you can replace it.

The serial number can be found on your mailbox key as pictured below in the red circle.

With your mailbox key serial number, get on the web and go to: www.mailboss.com and follow their directions to order replacement keys. If you do not have access to the internet, you can call them at **1-800-589-7990.**

Unfortunately, neither the HOA nor Targa have your mailbox key's serial number, so keeping it in **YOUR** records is essential. If you lose your key, and you don't have the serial number in to order a replacement, you will have to have a locksmith come out and drill out your lock and install a replace.
